EDUCATION

University of California, Irvine **Irvine, CA**
Master of Computer Science *Expected December 2026*
Bachelor of Science, Computer Science and Engineering. GPA 3.86 / 4.0 *Graduated March 2025*

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, JavaScript, TypeScript, HTML, CSS, SQL, Verilog, VHDL, MIPS
Frameworks & Libraries: Flask, React.js, Node.js, Express.js, EJS, WordPress, PHP, Pandas, Scikit-learn
Tools & Technologies: Git, GitHub, PostgreSQL, Postman, Figma, Tiva C, Arduino, Jetson Nano

TECHNICAL EXPERIENCES

Live Good Inc. **Irvine, CA**
AI Research Assistant & Web Development Intern *January 2026 – Present*
- Develop and maintain responsive web pages and site functionality using **WordPress** and **PHP**, with hands-on work in theme customization, template updates, and plugin modifications
- Research and evaluate potential AI integration use cases for the company website by focusing on technical feasibility, user impact, and alignment with business needs

UCI Division of Continuing Education **Irvine, CA**
Lead IT Services Assistant *April 2023 – September 2025*
- Delivered IT support and network troubleshooting for 300+ end users across **Windows 10/11** and **macOS** environments.
- Provisioned, configured, and supported **200+ endpoint systems**, including hardware set up, OS troubleshooting, software installation, device imaging, and workstation deployment.
- Managed **50+ help desk tickets weekly** and achieved an **85% resolution rate within 24 hours** through structured troubleshooting, timely follow-up and cross-department coordination.
- Supported **Active Directory** administration through account unlocks, user updates, and access-related troubleshooting.
- Implemented regular system updates and patch management protocols across the company's networks.

Nichietsu System Development **Ho Chi Minh, VN**
Front-End Developer Intern *July 2024 – September 2024*
- Designed and implemented front-end features using **TypeScript** and **React**, translating **Figma** design specifications into responsive and functional interfaces while ensuring consistency in layout, styling, and overall user experience
- Developed responsive and dynamic web interfaces using **HTML** and **Tailwind CSS** for both users and admins workflows to deliver optimized and consistent layout and styling.
- Conducted thorough **cross-platform testing** of web and mobile applications, diagnosing and **resolving UI/UX issues** to improve functionality and performance and ensure alignment with coding standards.

PROJECTS

Movie Tracker | React.js, Node.js, Express.js, PostgreSQL, Python, TMDB API, Flask API
- Built a full-stack web app using **React.js, Node.js, and Express.js** that allows users to search and explore movies, integrating the **TMDB API** for real-time movie posters and metadata.
- Developed a content-based filtering recommendation engine using **Python, Pandas, and Scikit-learn** that analyzes movie attributes such as genre, cast, and keywords to suggest similar titles.

AI Spider Droid | Python, PyTorch, Jetson Nano, LiDAR
- Assembled a 3D-printed spider robot and implemented **Proximal Policy Optimization (PPO)** in **PyTorch** to train autonomous walking behavior.
- Integrated **LiDAR sensor** input to help the robot detect its surroundings and improve navigation.
- Deployed trained models onto the **Jetson Nano**, enabling stable walking behavior without relying on external compute.

LEADERSHIP AND MENTORSHIP

UCI Donald Bren School of Information and Computer Science **Irvine, CA**
Undergraduate Lab Tutor *March 2023 – June 2024*
- Provided one-on-one support for 300+ students in **Python** and **C++** coursework by explaining programming concepts, debugging code, and guiding problem-solving during lab sessions
- Clarified object-oriented programming, algorithm design, and debugging techniques to help students strengthen their technical foundations and improve homework comprehension.
